Attach additional notes, copies of photos, sketches. names of other observers etc.

the bird seen in fine detail. Include all field marks seen, especially note the following.
 feet: type, size, color, bare or fiedood. bill: size shape, color, each mandible. eye: color, line, stripe, ring.
 color pattern, striped, scaled, plain. breast belly sides: color patterns, striped, streaked, spotted, barred, plain.
 all: shape, length, colors of bands, margins, corners, rump, coverts. wings: shape, color of patches, stripes, tips, lining
 radi: forehead, crown, nape, ear patch, chin, throat, whiskers, colors. specula, boys 1 or 2, flight attitude.

Size = 4-5"

Head = gray with indistinct, light eye stripe, dark eye bill = large tan variable

back = drab, ^{olive-gray} no streaking pale yellow rump

underneath = top $\frac{2}{3}$ pale ^{white} gray bottom $\frac{1}{3}$ (coverts, too) = bright yellow
 no streaking or distinguishing marks

tail = long, drab no streaking or edging

wings = drab, no wingbars

SEX: Male ☐ Female ☐ Unknown ☒	Song/Sound. Describe; perched, in flight, etc. no sounds	Distinctive fieldmarks which were <u>NOT</u> seen lores (dark), I just notice dark eye and eye line at my distance
AGE: Adult ☐ Sub-adult ☐ Juv./Imm. ☐ Unknown ☒ ♀ or Imm. ☐	Behavior: feeding, courtship, style of flight etc. hopping + flitting low in brush, fairly active (surprising for a vireo)	Variations from expected field marks 1. no. eye lores noticed (I don't know to look for these before) 2. very active 3. being bright yellow coverts
PLUMAGE: Breeding ☐ Eclipse ☐ Winter ☐ Light Phase ☐ Dark Phase ☐ Molting ☐	Habitat: Also adjacent habitat if significant. canyon - stream stayed low in brush (rabbit brush!)	Unique colors, injuries etc. of individual none
MOVEMENT: Stand/Perch ☒ Walking ☐ Running ☐ Hopping ☒ Swimming ☐ Wading ☐ Flying ☒	Similar species and how eliminated. not Orange-crowned because of very white breast w/ no streaks not Tennessee because of bright yellow coverts	Other species in company with this one none Number of birds of this species seen together with this one. <u>no other</u>
