Other X FALLNoneDescription of bird: Size, colors, all field marks OBSERVED. - Unique features of this individual, if any.Size - approx. five inches in length.Color - Olive-brown back, white underneath.Had yellow where wing joined body as well as small  
amount in wing & outer upper third of tail.  
Tail was notched <sup>for split</sup> which field guides do not show.

Field marks which were not seen. Why not?

None

Variations from expected field marks.

None - except tail.

List similar species and describe why or how you eliminated them.

Yellow-rumped Warbler female has a yellow rump & shows white in tail as well as streaking on side of breast. The bird we watched lacked these markings.

Behavior of this bird. Other species seen with this one. Any interaction between birds?

Very active. High up in tree, flitted from branch to branch, only dropped wings & spread tail once or twice, but was feeding and flying actively from tree to tree as we watched.

Habitat at this location. Adjacent or near by habitat, if significant.

Elm tree windbreak bordered by agricultural fields.

Describe bird's song or sounds.

None heard

Print reporter's name, address, phone number.
