I should have sent this earlier to you but was not sure how necessary? it might be until I say some of the birds we are evaluating in his present go-around.

Ross's Goose (Chen rossii). Shot by Kelly Thurgood during hunting season, 25 Nov 1987, Mouth Provo River at Utah Lake. With flock of gulls, Wt. 1,050 gms. It is being mounted for Mr. Thurgood by Skip Skidmore, taxidermists for the Bean Msueum. I weighed the bird myself.
