

# SEEKING EXPERIENCED BIRDERS!

*Can you identify more than 50 local birds by sight and sound?*

**Tracy Aviary** and the **Division of Wildlife Resources** are currently seeking new volunteers to participate in one of the nation's longest running citizen science project:

With a minimal time commitment of one day per year you can contribute to a critical dataset to help estimate the status and population trends of breeding birds throughout the U.S., Canada, and Mexico. Surveys begin in mid-May and continue through July.

**For more information, email:** [conservationi@tracyaviary.org](mailto:conservationi@tracyaviary.org)

⇒ **or visit:** [www.pcrw.usgs.gov/bbs](http://www.pcrw.usgs.gov/bbs)

**To get involved:** Contact Russell Norvell, Utah Division of Wildlife Resources. [russellnorvell@utah.gov](mailto:russellnorvell@utah.gov)
